This Front Matter is brought to you for free and open access by Findings from the Field. It has been accepted for inclusion in Findings from the Field by an authorized editor of Findings from the Field.

Note from the editors

Dear Findings from the Field Scientist Community,

As we continue to find our way back to normal from the challenges of the pandemic, the drive to better understand the world around us has not wavered. Students and their teachers continue to muddy their shoes in the intertidal and our impermanent vernal pools to seek out new questions and ideas about our changing ecosystems. The work done by this extraordinary group of young scientists is inspiring. Their curiosity and earnestness demonstrate the skills needed to thrive in today's world, and tomorrow's.

As we wrap up another volume of *Findings From the Field*, we are grateful for the community of scientists that make this journal possible and awed by their commitment to our ecosystems, to science, and the beauty of the natural world.

With gratitude,

Findings from the Field Editorial Board and GMRI *Findings* Team

Volume 6 Participating Schools

Messalonskee Middle School, Oakland, Maine

Bath Middle School, Bath, Maine

St. George School, Tenants Harbor, Maine

Loranger Middle School, Old Orchard Beach, Maine

Lincoln Akerman Middle School, Hampton Falls, New Hampshire

Greenville Consolidated School, Greenville, Maine

York Middle School, York, Maine

North Hampton School, North Hampton, New Hampshire

Volume 6 Editorial Board

Megan Smilikis, Gulf of Maine Research Institute
